

## **COM 33400 Web Design – Week 8 Assignment – Graphic Design**

### **Firm Website Micro Project Phase 3 - Final Site Design**

The final phase of this project should be produced by following these steps:

1. Print out your web design prototype (provide the URL link at the top of the page).
2. Meet with the client (your instructor) to determine necessary content updates and changes.
3. Obtain a signature to move forward on the project.
4. Produce a final layout for consideration next week .
5. Produce an invoice with evidence of time tracking and billing.

**When complete, upload your files to both Canvas and to a subfolder on a host platform.**

**Grade Breakdown is as follows:**

- A** A complete project proposal with good graphics and complete sections. A web prototype that utilizes all pics and text effectively. The site functions and is very clean. The site is distinctively different than the template. The site uses several interesting bootstrap components effectively. Invoice delivered with time tracked.
- B** A short project proposal with few graphics. A web prototype that utilizes most pics and text effectively. The site mostly functions but has some alignment/color/aesthetic/spelling issues. Invoice delivered with no time tracking.
- C** A very short project proposal with few graphics. A web prototype that utilizes only several pics and some of the text effectively. The site mostly functions but has some alignment/color/aesthetic/spelling issues. Some buttons/items don't function or are extra for no reason. No invoice.
- D** A no project proposal. Web prototype utilizes only a few pics and has filler text. The site is mostly non-functional and still looks like the generic template. No invoice.
- F** No proposal. No site. No invoice. Frowny face.
